

**Vintage  
Recycled Gifts  
from Lark Made**

Hand-made, quality, ethical, stylish and fun are the core values of each Lark product. I love these quirky gifts - from the knitted cotton ice cream rattles, and cotton doughnuts for babies, to vintage hair slides and tea towels, there's something to charm anyone this Christmas at [www.larkmade.com](http://www.larkmade.com). And every creation is produced with social and environmental responsibility in mind - recycled, organic, handmade or fair trade and packaged at minimal cost to the environment. The full range can be purchased online, via the website.
